POPE LEO'S ILLNESS MORE COMPLICATED

PLEURISY AND PARALYSIS ADD
TO THE SERIOUSNESS OF PON-
TIF'S CONDITION.

PASSED A RESTLESS NIGHT

PATIENT TAKES SLIGHT NOURISH-
MENT AND LEAVES HIS BED
FOR AN ARMCHAIR.

PERCHANCE FOR LAST TIME

ASKS TO SEE THE RAYS OF THE
SUN ON WHAT MAY BE THE
DAY OF HIS DEATH.

Rome, July 7.—9:20 a. m.—The pneu-
monia from which his holiness has
been suffering is now complicated with
pleurisy and the pontiff has paralysis
of the fingers. Pope Leo passed a
restless, sleepless night.

Rome, July 7.—Another morning has
broken on the scene within the simple
chamber of the vatican where Pope
Leo lies dying. As the soft light of
dawn penetrated into the room the
pontiff whispered to his devoted physi-
cian that he desired the shutters of
the windows to be opened, saying:

"I wish to see once more, perhaps
for the last time, the rays of the sun."
It was only a short period that the
pope came back to consciousness from
a sleep which Dr. Laponi had induced
by a strong dose of chloral. His sleep
was so death-like that artificial respi-
ration was continued and Dr. Laponi
every few minutes leaned anxiously
over the couch to observe the patient
and to listen to his hardly perceptible
breathing.

Pains in Chest and Shoulders.
Pope Leo awoke wet with perspi-
ration, feeble to the extreme, and his
voice hardly audible. The fits of
coughing had brought pains in his
chest and shoulders and, thinking his
end was near, he said to Dr. Laponi:
"Tell me when the time really comes."
The doctor assured his holiness that
he believed the danger of his imme-
diate death was averted for the night
and for today.

These seemingly last moments of
Pope Leo are full of solemnity. Per-
haps his last hours would be less
melancholy and sad if the august suf-
ferer were less conscious of the cir-
cumstances and his mind less clear
as to the duration of time remaining
to him before he enters eternity. Al-
though his physical powers are at the
lowest ebb and his breathing becomes
more labored, the pope's mind is clear,
as is manifested to all around him by
his bright, expressive eyes and the
few words he now and then succeeds
in uttering. The scene is so touching
that those present

Can Scarcely Restrain Their Tears.
Count Camillo Pecci, the pope's neph-
ew, whom the dying man kept by his
bedside yesterday, was so exhausted
late last night by his contending emo-
tions that he had to be taken from his
uncle's room completely worn out. A
few moments before, as he stood bowed

best of the bed, Pope Leo laid his hand
on Camillo's head, saying: "Take
courage."

Shortly after 10 o'clock at night the
pontiff received the extreme unction.
At 9 o'clock his condition seemed so
hopeless that only a short time ap-
parently remained before he would
glide into his last sleep. At Dr. Lap-
poni's initiative a hasty consultation
of the pope's relatives, Cardinal Ram-
polla and other ecclesiastics was
held and it was decided that extreme
unction should be given. The pontiff
received the announcement with his
usual calmness and, though scarcely
able to speak audibly, he said he

Knew His Time Had Come
and he was ready to appear before the
sublime tribunal with full trust in di-
vine mercy.

Mgr. Piffert, Pope Leo's confessor,
administered the extreme unction and
when the ceremony was over, his holi-
ness sank back on the pillow with ap-
parent great relief that all was done
and that he was entering into rest af-
ter his long pilgrimage.

After the administration of the
viaticum, telegrams hoping for his re-
covery were shown to the pope and
he appeared to be much gratified.
One of the strangest features in his
condition is the interest the pope
takes in telegrams inquiring about his
health.

Yesterday, having heard that a
French woman, whom he had received
in audience a few weeks ago, had tele-
graphed a message of sympathy, he
asked to see the dispatch, and when
Mgr. Piffert brought it he was not
satisfied with looking at the message,
but wished to read it.

From the Piazza of St. Peter's the
groups of watchers can see figures
fitting to and fro past the lighted win-
dows of the palace, an unusual num-
ber of which are illuminated.

Takes Some Nourishment.

The official bulletin issued at 6
o'clock this morning states that the
pope rested peacefully during the
night and took some nourishment.
His holiness will perhaps live through
the day.

The pope took nourishment four
times during the night. His pulse
shows a slight improvement. At 6:30
o'clock this morning he left his bed
for an armchair.

At 6:45 a bulletin says the condition
of the pope is stationary. After twice
taking a raw egg and a little brandy he
went to sleep.

In an interview, Dr. Laponi, the
pope's physician, said there is no
consoling news. The patient's pulse
is imperceptible, and, although he may
live for several days, there is hardly
any hope of his recovery.

It is now thought certain that the
visit to France of the king and queen
of Italy, now arranged for July 18,
will be postponed, as in the event of a
fatal termination of the pope's illness,
King Victor Emmanuel will not be
able to leave the kingdom until the
successor to the pontifical throne has
been elected and installed.

Pilgrimage Postponed.

New York, July 7.—A pilgrimage to
the holy see, in which clergy and lay-
men from all parts of the country were
to take part and which was expected
to leave here today on the steamer
Lombardia, has been postponed for a
week on account of the serious condi-
tion of the pope.

RECEIVER APPOINTED.

Remington Watch Plant at Appleton,
Wis., May Resume Operations.

Appleton, Wis., July 7.—The Rem-
ington Watch company of Appleton,
which was a week ago closed by a
strike of 125 employees for several
weeks' back pay, was Monday thrown
into the hands of a receiver on se-
questration proceedings brought by J.
H. Kemps and E. W. Sacksteder, who
are stockholders in the company. The
court appointed J. A. Hawes, receiver
of the company, with bonds at \$50,000.
It is understood the plant will resume
operations within a week.

TWENTY KNOWN DEAD

SIXTEEN OTHERS ARE MISSING
AS A RESULT OF THE OAKFORD
PARK DISASTER.

ENORMOUS PROPERTY LOSS

WORKSHOPS IDLE AND THE EM-
PLOYES WILL BE OUT OF
WORK FOR WEEKS.

Jeannette, Pa., July 7.—As a result
of the breaking of the Oakford Park
dam Sunday, twenty persons are
known to be dead and sixteen are
missing. The property loss in the val-
ley will reach \$1,500,000 and the dis-
tress is so great that outside relief will
have to be asked for.

From a happy, prosperous valley this
region in a single day has been trans-
formed into a great household of
mourning. Homes have been wrecked
and great workshops forced into idleness.
Hundreds of men will be out of
employment for several weeks.

All day long hundreds of willing
hands pulled away the great piles of
debris in the search for the missing
residents of the valley. From time to
time the searchers would find a mui-
lated body of a relative. All during
Sunday night and Monday volunteers
searched along the path of the torrent.

While many men searched among
the debris for the dead, others called
the citizens of Jeannette together to
provide means of relief for the suffer-
ing residents of the valley. Dozens of
families had been driven from their
homes and were thrown on the charity
of the town. In a few minutes \$12,000
was raised. It was found, however,
that this sum would not be sufficient.
Jeannette wanted to care for its own
needs and could have done so had
not the merchants and business men
generally been heavy losers. It was
found that \$5,000 was needed from out-
side sources and the people of Jeannette
trust their friends throughout
Western Pennsylvania will respond
promptly.

In Jeannette Monday, business was
almost at a standstill, many of the
stores having been flooded and many
of the workshops were in the path of
the torrent. To the throng of idle
citizens were added great crowds of
strangers who came from all over
Western Pennsylvania to see what had
happened.

Thieves Flock to the Scene.

A number of thieves also came to
make profit out of the morbid crowd.
There was a great crowd assembled
all day at the pile of wreckage heaped
against the railroad embankment east
of town and scattered over the bottom
land. It was here that the greater
number of unrecovered bodies was
supposed to be buried. During the
night men with lanterns picked their
way over wreckage looking for bodies.
When morning came a large force of
volunteers went to work and a system-
atic search began.

The workmen turned over every bit
of wreckage and peered beneath it.
Monday evening the men said that
they had made a thorough search and
no more bodies remained in the de-
bris.

The following are the identified dead
and missing thus far reported. Others
whose names have not been learned
are thought to be buried beneath the
piles of debris that are strewn every-
where, or have been carried with the
rushing waters of the Monongahela
river:

Lucy Crum, Gertrude Keefer, Cath-
arine Connelly, Joseph Brown, Sissy
Bird, Eva Wiggins, Joseph Oberle,
John McCann, Mary Gillespie, Annie

Gillespie, Albert Brown, John Fleming,
James Westwood, Joseph Weightman,
Mrs. William Negar, three children
of Mrs. William Negar, Henry Fink,
Mrs. Cyrus Shader.

The missing are: Mary Griffith, Kate
Grongewar, Jule Anderson, two small
sons of Jacob Anderson, Mary Davis,
David Braniel, Mrs. Catherine Fink,
Martin Pressler, John McGulrk, George
Williams, Alex. Victor, Curtis Moore,
Samuel Vogle, Alfred Sipe.

ARGUMENTS IN DEWEY CASE.

Defendants Apply for Admission to
Bail Pending Their Trial.

Topeka, Kan., July 7.—The argu-
ments in the case of Chauncey Dewey,
Clyde Wilson and W. J. McBride were
made before the supreme court Mon-
day. They made application for ad-
mission to bail, pending their trial in
the Cheyenne county district court
next December. The argument on
which the men based their contention
for bail was that the killing of the
Berrys was done in self-defense.

Attorney General Coleman and his
associates made the contention on be-
half of the state that there was no
provocation for the murder of the Ber-
rys and that the crime was committed
in cold blood.

It is likely that a decision will be
made by the supreme court some time
during the present week.

ESCAPES FROM JAIL.

William Rudolph Makes Successful
Break for Liberty.

St. Louis, July 7.—William Rudolph
of Union, Mo., who has been confined
in the city jail for several months on a
charge of participating in the rob-
bery of the bank at Union last winter,
and of killing Detective Schumacher,
escaped from jail through a skylight
and he is still at large. Shortly be-
fore his escape Rudolph was let out of
his cell to be shaved. The exercise
corridor at the time contained about
twenty prisoners. The guards were
engaged in looking up the prisoners
for the night when, as Rudolph passed
them through the east end of the ex-
ercise corridor, a fight broke out
among the prisoners in the west end.
Most of the guards ran to separate the
fighting prisoners, and Rudolph quick-
ly ran up three flights of stairs, jumped
to the top of the cells, and in a flash
had swung himself by the aid of an
iron ladder to the skylight. He forced
the skylight and went out on the roof,
sixty feet from the ground. Rudolph
grasped an electric light wire that ex-
tended to the ground and slid down
fifty feet. The wire snapped, and he
fell to the ground. Regaining his
feet, he ran through Sergeant Daw-
son's residence out to the street and
away. Rudolph effected his escape
before he was missed.

OLD SHAMROCK BEATEN.

New Challenger Victorious by Over
Six Minutes.

New York, July 7.—Shamrock III
covered a thirty-mile course off Sandy
Hook Monday six minutes and eight-
teen seconds faster than Shamrock I.
It was a broad reach of fifteen miles
to the outer mark and a long leg close
hauled back to the finish line.
Reaching and running are the old
Shamrock's best points of sailing. Sir
Thomas Lipton and Designer Effe
were satisfied with the new boat's
showing in reaching, but they were
delighted with the splendid fashion in
which she beat the old boat in a five-
mile thrash to windward after the
finish of the race. Clear skies and an
eight-knot south southwest wind,
freshing to twelve knots at the finish,
made splendid racing conditions. The
course was east by north.

TELEGRAPHIC BREVITIES.

Novelties in Fireworks.
Among the novelties in fireworks for
the Fourth this year is the string of
mandarin crackers, which contains
from 1,000 to 40,000 firecrackers, says
the New York Evening World. These
come in ten foot lengths and are sup-
posed to be hung up on a pole or tree
before being set off. At the end is
what is called a mandarin bomb. One
of these strings in operation sounds
like a discharge of musketry, followed
by a park of artillery just getting into
action.

Of late years aerial sharpshooting
has grown in favor until it has be-
come one of the joys of the night cele-
bration. All that is necessary is a hot
air balloon with a circumference of
about thirty feet and a dozen or so six
pound skyrockets. After the balloon
is released it will shoot into the air

HOSTILITIES INEVITABLE.
Japan Mobilizing Her Forces for War
With Russia.
London, July 7.—According to the
Tien Tsin correspondent of the Stand-
ard, the opinion prevails in Russian
circles there that the outbreak of hos-
tilities in the far East is inevitable.
It is reported that the Japanese are
mobilizing their forces. It is thought
at Tien Tsin that in the event of a
war with Russia everything would fa-
vor the Japanese, who certainly are in
a better state of preparation.

ARE YOU AFFLICTED WITH THE ITCH KING OF THE BLOOD ECZEMA

The prevalence of Eczema among the young and old is due to the introduction of potes-
ent matter in the blood. Those pimples, sores and eruptions upon the face, neck and body
are all caused by impure blood. ECZEMA is a living fire to the blood, and the blood fire
the skin with the fuel of its impurities; remove the impurity and the trouble passes away.
MEDERINE is a specific blood purifier that cleanses, filters and purifies the blood of
every possible taint, and quickly and permanently cures Eczema. Thousands of well-
known citizens in every section of the country have been cured by the MEDERINE treat-
ment after all other remedies had failed. This is the reason that every bottle of MEDE-
RINE is sold on the positive and absolute guarantee that it will cure.

Eczema on Face and Neck.
Sam S. Clark, St. Joseph, Mo., writes: I have been
afflicted for years with pimples and blotches on my face
and neck. I was a sight to look upon. After trying all
the best known remedies for 18 months, I tried MEDE-
RINE, and it cured me and my face is now free from
pimples, blotches and all signs of Eczema. I have found
an express order for another course of treatment for a
friend of mine.

Eczema Permanently Cured.
Mrs. Francis L. Cooley, Memphis, Tenn., says: I write
to tell you that my Eczema of twelve years standing is
cured. All the little itchy eruptions on my back and
legs have disappeared. The skin of my body for years
was covered with reddish spots and inflammation, which
would swell, while between my toes the flesh would peel
off, and the itching and burning at times was almost
unbearable. I tried doctors' prescriptions and other
sure cures with no success.

Write MEDERINE REMEDY CO., Duluth, Minn., for their system of treatment. All
letters answered. Illustrated booklet containing testimonials of cures mailed free.

PRICE, \$1 PER BOTTLE. Sent express prepaid if your druggist does not carry MEDERINE in stock. **6 BOTTLES FOR \$5.**

MEDERINE OINTMENT The new treatment for Eczema, Salt Rheum, and all itching sores, boils and ulcers. 50c per box. **MEDERINE SOAP** for bath, bath and nursery, it softens the skin, a complexion beautifying and perfect care for Dandruff and all scalp and skin diseases. Price 25c.

Tents Are Waterproof.

A promise frequently made by showmen is the assurance that their tents are water-proof, and so persistently has this promise been violated that few people put any faith in such a statement. However, those who have visited the Sells & Downs shows in recent years, and have been caught in a rain storm, will corroborate its statement that the tent used by the great Sells & Downs shows are thoroughly water-proof, and will turn almost any rain that will not penetrate an ordinary roof.

EXPLOSION KILLS THREE.

Several Others Injured in an Accident at Chicago.

Chicago, July 7.—Three persons were instantly killed and several injured, one fatally, Monday night in an explosion which wrecked a factory in South Chicago avenue, where caps for toy pistols were manufactured. The three persons killed were mangled so badly that only part of their bodies were found.

The dead are: Thomas Hazelhurst, Charles Hazelhurst and Irving Sanford.

Sanford was killed while loading bundles of explosives on a wagon outside of the building.

Noble Higgins, who was standing outside the building, was fatally injured. The other injured suffered severe burns and bruises, but all will recover.

The explosion was caused by concussion, according to the management of the factory. It is believed that one of the men dropped a bundle of caps, which were uncut and on broad sheets of paper. The explosion broke all the windows for blocks in the vicinity.

The factory was a two-story frame building. The financial loss is small.

WARNING FOR CASSINI.

Simon Wolf Writes to Ambassador on Jewish Outrages.

REQUESTS PROOF OF SINCERITY.

Ex-Consul General to Egypt Says Tide of American Public Opinion Over Kishineff Horror May Overwhelm Friendship For Russia—Advocates New Treaty to Guarantee Full Recognition of American Passport in Czar's Empire.

Simon Wolf of Washington, who was consul general in Egypt under President Grant and is prominent in Jewish circles, has written a letter to Count Cassini, the Russian ambassador, in regard to the Kishineff massacre and the attitude of the Russian government toward citizens of the United States of the Jewish faith, says a Washington dispatch to the New York Times.

"You are about returning to the empire of Russia," says the writer. "You will have to give an account of the public sentiment of this country in the late outrages against the Jews of Kishineff. Are you fully aware that, although the government of the United States could not officially voice this sentiment, yet it has no doubt of the existence of such sentiment and is morally bound to respect and enforce it?"

"Therefore, in view of the declaration so broadly made by you that Russia has been the friend of the United States and desires a continuance of its friendship, it is high time to evidence the friendship by deeds and not by empty phrases.

"You know—so does the government you represent—that the restrictions imposed and the inhumanities practiced on the Russian subjects of Jewish faith drive every year from 30,000 to 40,000 of them to the United States. This steady stream, owing to the late outrages, will be increased now, and every newcomer will feel hatred against Russia. Would it not be better to have 5,000,000 Russian subjects of Jewish faith loyal, patriotic Russians by giving them equal rights at home than to incur the enmity of 80,000,000 free and sympathetic American citizens?"

"Now you can aid by the usages and precedents of diplomacy. Temporalize and evade, and you will precipitate into the halls of congress and the state legislatures the intemperate mouthings of the scheming politician, and the government of the people, representative of its will and power, finally will yield to votes, and the so called traditional friendship will be shattered, and the enemies of Russia will reap the benefits. Is this wise? Is it diplomacy or statesmanship?"

"To have your government prove its sincerity and friendship, let it at once take advantage of the overwhelming public sentiment of the people of the United States and negotiate a new treaty with our government guaranteeing the recognition of the American passport in Russia, irrespective of race or creed, and thus allaying by peaceable means this most aggravating and annoying difference between the two great and friendly powers.

"You are well versed in the arts of diplomacy and know, as I know, the feelings of our government on these important questions. They cannot be relegated by newspaper interviews nor by lying bulletins made to deceive and obscure. The people of the United States are slow to anger, but when once aroused they not only think freely, but will act.

"In a spirit of broadest and most generous solicitude do I speak these words of admonition in the hope that you have profited by your enforced stay and will give to those who govern in Russia a faithful insight into the sea of American public opinion, which will sweep onward—and, if needs be, upward—wrecking friendships and possibly administrations, unless its wishes and mandates are heeded, obeyed and enforced."

Counter Cases Exchanged Within the Time Limit.

Washington, July 7.—The counter cases in the Alaskan boundary matter have been exchanged within the time limit. The counter case of the United States last Friday was given to the British charge of embassy at Newport, and at almost the same moment in London the British counter case was handed to the American embassy, so that each side is now ready for the next step, namely, the preparation and submission of the arguments which are to be laid before the commission in London Sept. 3.

The British government, after a careful inspection of the American case submitted two months ago, has expressed a desire to see the originals of the many excellent charts and maps which are the main reliance of the American agent. These include maps that never before have been mentioned in connection with the case and which the state department has spent much time and money in securing from the most out of the way places. The department has acceded to the British request. Mr. Otis T. Cartwright of Nebraska, who already has been connected with the American side, has been named as assistant agent to assume care of the original maps.

Stimulating Marriage.

Hampton-on-Thames is holding out special inducements to young workmen who want to marry and settle down, says the London Chronicle. The urban district council has lately acquired an estate at Rosehill, upon which it is building workmen's dwellings. But what is home without a wife? So Prebendary Ram, the vicar, in laying the foundation stone, made a sporting offer in the interests of the population of the district. He offered to marry any couple free of charge who within the next twelve months would take one of the new houses and settle in it.

TWO WELL KNOWN ENGINEERS KILLED

John Nason in Wreck at Detroit City and John E. McGowan Near Dellwood.

BOTH WELL KNOWN IN BRAINERD

Engine and Four Cars of the North Coast Limited Ditched at Detroit.

There was a very disastrous wreck yesterday afternoon about 4 o'clock at Detroit city in which John Nason, well known Northern Pacific engineer on the Minnesota division, was instantly killed.

It was the North Coast Limited, which leaves Staples about 2 o'clock that was ditched and so far as known the cause of the wreck has not been ascertained. This train has a very fast schedule and makes but one stop between Staples and Fargo, at Detroit. Yesterday she was pulling into the city of Detroit at a high rate of speed and in striking the frog of the first switch the engine jumped the track, running along some seventy-five feet then turning crossways on the track and plunging into the ditch, completely burying itself in the sand. Engineer Nason was at the throttle and so far as known he stuck to his post to the last and when found was buried in the ground under the engine, crushed, scalded and bruised beyond recognition.

After the engine and tender jumped the mail car also jumped and rolled over to the right, then the baggage car followed and rolled down the embankment, and then again the day coach, but no one in any of these cars was hurt to any extent.

The fireman on the engine jumped and therefore escaped injury.

Engineer Nason was a very popular trainman and made his home at Staples. He is well-known in this city.

John E. McGowan, another well-known N. P. engineer, who has many friends in this city, was killed near Dellwood, a small station on the N. P. between St. Paul and Stillwater. The engine in charge of McGowan was hauling a train of empty flat cars from Stillwater to St. Paul. When approaching Dellwood the track sank owing to the recent rains and the tender left the rails. McGowan and Hokinson, the fireman, jumped from the engine. McGowan had hardly struck the ground when the engine toppled over on him and crushed him to death. Hokinson, who jumped from the other side of the engine, escaped with a broken right ankle and several bruises.

McGowan was a fireman with James Root on the famous run made on the St. Paul & Duluth road at the time of the Hinckley fire. He was presented by the St. Paul & Duluth road with a handsome gold watch, decorated with diamonds suitably engraved for his bravery on that occasion. The watch was in his pocket at the time of the accident yesterday, and was running when the body was removed from beneath the wreck.

Elephant Stops a Train.

The Topeka (Kas.) Capitol of April 15 says: "Barney" the big elephant which arrived here this morning, consigned to Sells circus has the distinction of stopping a freight train for five hours, and giving the laugh to the crew. The stop was made near Cameron, Mo., last Thursday. The engineer noticed that the steam was not up to the standard and investigated, but found nothing wrong, but the register continued to go down, the train came to a stop and after hunting about the fireman noticed that the water in the tank was low. Another start was made, but finally the train was stalled, and the tank was found empty. The crew said all kinds of things but could not find the cause until a breakman finally discovered "Barney" slyly protruding his trunk from the car next to the engine. The secret was out, he had been smooth enough to drink the water when nobody was looking. The keeper took "Barney" to a stream nearby and forced him to fill his trunk and carry water to the tank until it was filled, five hours was lost before the engine was "fired up" and under way. This monster elephant will be seen in Brainerd on Thursday July 16th, the date of the big Sells and Downs shows.

Tents Are Waterproof.

A promise frequently made by showmen is the assurance that their tents are water-proof, and so persistently has this promise been violated that few people put any faith in such a statement. However, those who have visited the Sells & Downs shows in recent years, and have been caught in a rain storm, will corroborate its statement that the tent used by the great Sells & Downs shows are thoroughly water-proof, and will turn almost any rain that will not penetrate an ordinary roof.

EXPLOSION KILLS THREE.

Several Others Injured in an Accident at Chicago.

Chicago, July 7.—Three persons were instantly killed and several injured, one fatally, Monday night in an explosion which wrecked a factory in South Chicago avenue, where caps for toy pistols were manufactured. The three persons killed were mangled so badly that only part of their bodies were found.

The dead are: Thomas Hazelhurst, Charles Hazelhurst and Irving Sanford.

Sanford was killed while loading bundles of explosives on a wagon outside of the building.

Noble Higgins, who was standing outside the building, was fatally injured. The other injured suffered severe burns and bruises, but all will recover.

The explosion was caused by concussion, according to the management of the factory. It is believed that one of the men dropped a bundle of caps, which were uncut and on broad sheets of paper. The explosion broke all the windows for blocks in the vicinity.

The factory was a two-story frame building. The financial loss is small.

WARNING FOR CASSINI.

Simon Wolf Writes to Ambassador on Jewish Outrages.

REQUESTS PROOF OF SINCERITY.

Ex-Consul General to Egypt Says Tide of American Public Opinion Over Kishineff Horror May Overwhelm Friendship For Russia—Advocates New Treaty to Guarantee Full Recognition of American Passport in Czar's Empire.

Simon Wolf of Washington, who was consul general in Egypt under President Grant and is prominent in Jewish circles, has written a letter to Count Cassini, the Russian ambassador, in regard to the Kishineff massacre and the attitude of the Russian government toward citizens of the United States of the Jewish faith, says a Washington dispatch to the New York Times.

"You are about returning to the empire of Russia," says the writer. "You will have to give an account of the public sentiment of this country in the late outrages against the Jews of Kishineff. Are you fully aware that, although the government of the United States could not officially voice this sentiment, yet it has no doubt of the existence of such sentiment and is morally bound to respect and enforce it?"

"Therefore, in view of the declaration so broadly made by you that Russia has been the friend of the United States and desires a continuance of its friendship, it is high time to evidence the friendship by deeds and not by empty phrases."

"You know—so does the government you represent—that the restrictions imposed and the inhumanities practiced on the Russian subjects of Jewish faith drive every year from 30,000 to 40,000 of them to the United States. This steady stream, owing to the late outrages, will be increased now, and every newcomer will feel hatred against Russia. Would it not be better to have 5,000,000 Russian subjects of Jewish faith loyal, patriotic Russians by giving them equal rights at home than to incur the enmity of 80,000,000 free and sympathetic American citizens?"

"Now you can aid by the usages and precedents of diplomacy. Temporalize and evade, and you will precipitate into the halls of congress and the state legislatures the intemperate mouthings of the scheming politician, and the government of the people, representative of its will and power, finally will yield to votes, and the so called traditional friendship will be shattered, and the enemies of Russia will reap the benefits. Is this wise? Is it diplomacy or statesmanship?"

"To have your government prove its sincerity and friendship, let it at once take advantage of the overwhelming public sentiment of the people of the United States and negotiate a new treaty with our government guaranteeing the recognition of the American passport in Russia, irrespective of race or creed, and thus allaying by peaceable means this most aggravating and annoying difference between the two great and friendly powers."

"You are well versed in the arts of diplomacy and know, as I know, the feelings of our government on these important questions. They cannot be relegated by newspaper interviews nor by lying bulletins made to deceive and obscure. The people of the United States are slow to anger, but when once aroused they not only think freely, but will act."

"In a spirit of broadest and most generous solicitude do I speak these words of admonition in the hope that you have profited by your enforced stay and will give to those who govern in Russia a faithful insight into the sea of American public opinion, which will sweep onward—and, if needs be, upward—wrecking friendships and possibly administrations, unless its wishes and mandates are heeded, obeyed and enforced."

Counter Cases Exchanged Within the Time Limit.

Washington, July 7.—The counter cases in the Alaskan boundary matter have been exchanged within the time limit. The counter case of the United States last Friday was given to the British charge of embassy at Newport, and at almost the same moment in London the British counter case was handed to the American embassy, so that each side is now ready for the next step, namely, the preparation and submission of the arguments which are to be laid before the commission in London Sept. 3.

The British government, after a careful inspection of the American case submitted two months ago, has expressed a desire to see the originals of the many excellent charts and maps which are the main reliance of the American agent. These include maps that never before have been mentioned in connection with the case and which the state department has spent much time and money in securing from the most out of the way places. The department has acceded to the British request. Mr. Otis T. Cartwright of Nebraska, who already has been connected with the American side, has been named as assistant agent to assume care of the original maps.

Stimulating Marriage.

Hampton-on-Thames is holding out special inducements to young workmen who want to marry and settle down, says the London Chronicle. The urban district council has lately acquired an estate at Rosehill, upon which it is building workmen's dwellings. But what is home without a wife? So Prebendary Ram, the vicar, in laying the foundation stone, made a sporting offer in the interests of the population of the district. He offered to marry any couple free of charge who within the next twelve months would take one of the new houses and settle in it.

THE HOUSE FURNISHER.

COUNCILMEN HAVE A TAME SESSION

Regular Meeting of the Brainerd
City Fathers Held in
Chambers.

ROUTINE BUSINESS TRANSACTED

Report of Supt. Peterson on
Water Power at Dam Was
Rather Important.

The first regular meeting of the city council held in chambers last night was one of the tame variety and very little outside of the regular routine of business was transacted. Contrary to what had been expected the council did not discuss the water works matter at all, and in view of the recent meeting of the citizens' committee it seemed strange. President Crust presided over the deliberations and the following responded to the roll call: Halladay, Murphy, C. D. Johnson, Rowley, Gruenhagen and Robertson.

The report of Supt. Peterson, of the electric light plant, showed forty lights out in during the month of June, three cut out and seventy-six are lights in use. He reported having placed new lights at the following intersections: Corner of Whiteley and Mill streets, First avenue and Pine street, First Ave. and Farrar street, Tenth and Ivy streets, Second and Kingwood streets. He reported that the motor for the crusher had been sent to the Northern Electric company, of Duluth, for repairs, but it had not been returned.

The superintendent brought up a matter of great importance and reminded the council that it is imperative that something be done at once. It was regarding the water trail under the wheels at the power house. He stated in the report that the water had not been so low in years and that the matter requires the immediate attention of the council for fear of a complete shut down. Mr. Peterson reported that two transformers had burned out during the recent electrical storm and recommended that two new ones be purchased. The report was on motion accepted and filed.

The usual grist of reports from the city officials were received, but nothing of importance developed therefrom, they being of a routine nature.

The usual pay rolls of the city were also allowed.

A bill was received from the Northwest Paper company for \$750 water power rental from the first of January to the first of July. This bill seemed an enigma to some of the councilmen in view of the fact that it was supposed the paper company took control of the dam on June 1, as they had been led to believe. But the matter was explained by Alderman Rowley that the company was probably collecting part of the amount for the boom company; that there is a clause in its contract prohibiting it from selling water power at the dam, and in fact Mr. Rowley explained that this was one reason why it had been difficult for the city to ascertain who really owned the dam during the past year or two.

There was quite a hubbub made by Alderman Murphy over the matter of the purchase of two window shades for Alderman Rowley's office, but it was ascertained that these shades were purchased for the engineer's office and under instruction from the special committee to look after this matter. No rent is charged the city for the office, but it was the understanding that the shades would be put on.

The committee to which had been referred the matter of constructing a bridge across Spring creek, instead of furnishing the council with a report themselves had City Engineer Woolman look the ground over and furnish an estimate of the cost of a bridge there. The approximate cost he thought would be \$534. The report was accepted and filed but no further action was taken regarding the matter.

On motion City Attorney Fleming was instructed to proceed to open up Kinsey street between Second and Third avenues in East Brainerd.

On motion of Alderman Halladay the street commissioner was instructed to inspect the sidewalks on Eighth street near the Episcopal church, and if he finds them in bad shape to have them condemned and new walks laid.

The matter of filling the street on the corner of Fifth and Kingwood came up. After the sidewalk in front of the Paine and Rhodes properties was put down the grade which was made is way up and consequently there will have to be a big fill in the streets. It was thought that this should be done at once in order to protect the walks. Alderman Rowley thought that a permanent resolution or ordinance should be passed making it compulsory at all times for such fills to be made immediately. No action was taken on the matter.

City Engineer Woolman was instructed to ascertain if the sidewalk on Seventh street between Kingwood and Juniper streets had been laid to grade according to the profile adopted.

The liquor license applications of the following were granted and he

bonds in each case approved: John Parsons, Tyske & Lindstrom, Chas. Swanson, Chas. Peterson, D. F. McIntosh, Jerome Kelleher and J. C. Jamieson.

Mike Remmels had an application in but this was referred to a special committee to investigate consisting of Aldermen Robertson, Rowley and Gruenhagen. Alderman Robertson is the man who made Mr. Remmels squirm and claimed that he had many complaints of the way he had run his saloon on the corner of Laurel and Eighth streets.

A resolution was received by the council from the Brotherhood of Railroad Carmen referring to the water works matter. The resolution was in effect an appeal to the council not to deal with The Minnesota Water Works company but rather to form a stock company and put in an independent plant. The resolution was on motion placed on file.

The council passed an ordinance providing for a dog agent. It seems that the old ordinance was defective in some manner and as Special Officer Knudson has been getting very busy in the dog business lately it was found necessary to do something. The mayor will now appoint Knudson dog agent and he will be officially confirmed by the council.

Judge Warner's request for a telephone was referred to City Clerk Low who will interview Manager Walker, of the telephone exchange on the matter. City Engineer Woolman furnished the profiles for the grades on Fifth street north and Ninth street south. They were officially adopted.

Street Commissioner Weitzel was instructed to use his little book in the future.

Alderman Gruenhagen thought the catch basins in the city should be cleaned and a motion to this effect prevailed.

A motion by Alderman Rowley prevailed to the effect that Former Eng. Whiteley be instructed once more to return all the profiles, maps, etc., of the city. The city attorney was instructed to look after this matter and place a time limit for the return of the same at ten days.

The council adjourned.

Always Draw Good Crowds.

Gollmar Bros.' big railroad show exhibited in this city Monday and gave two very good performances to tremendous crowds. The menagerie was excellent and comprised a large collection of animals. The only hippopotamus in captivity was of course the center of interest in that line. The street parade formed promptly on time and was greeted its entire length by crowds of spectators. The attractions indicated by show bills were strictly as advertised. The show was clean and orderly and met the approval of all attending. Gollmar Bros. will always draw good crowds and prosper because their show is strictly moral in every sense of the word.—Hartford Press.

Education Elected.

A REGULAR MONTHLY MEETING.

Of the Board at Which Several
Matters of Importance Came
up for Consideration.

There was a meeting of the board of education last night at the Washington school building and there were several matters of importance brought up for consideration.

One of the most important matters, perhaps, was the election of a member of the board to succeed S. L. Bean, whose resignation was received. The only name presented to the board for consideration was that of Dr. Werner Hemstead and he was unanimously elected.

The janitor committee presented the names of those whom they recommended for janitors for the ensuing year and they were unanimously elected. The men are all reelected and their names are as follows: First ward, A. B. Anderson; Second ward, Chas. Blomstrom; Third ward, J. P. Anderson; Fourth ward, John Noran; Fifth ward, M. Swanson; Mill, James Chadwick.

The resignation of Miss Anna B. Keating as a teacher in the schools was received and accepted.

The request of Prof. J. A. Wilson for two rooms in which to conduct a teacher's examination was referred to the committee on buildings with power to act.

The report of Supt. Martin, who has charge of the work on the new additions was received and filed. He furnished the estimates of the cost of the work done so far.

The finance committee reported having checked up the books of Treasurer Erickson and found them to be correct in every particular.

The following is the treasurer's report for the quarter ending April 30:

JOHN HAD CLOSE SHAVE.

While Out Boating at White Fish Lake the
Boat Filled and Three Men had
Narrow Escape.

John Cochran, the popular barber, who returned from Matt Kemp's on White Fish lake this noon, says that he is tickled to death to be alive and kicking today. There was a time yesterday, he states, when he thought that he was at the jumping off point, and John's face, which from several days' exposure to the sun has turned about the color of an overbaked pretzel, turns pallid when he relates the experience he had on a boat with Matt Kemp and another gentleman by the name of Chas. Boardman, of Iowa.

The three had started out early in the morning and had gone over to Knox lake for bass fishing. On their return home, about 5 o'clock, just after they had left Squaw Point and had reached nearly half the lake a gale blew up and the little craft could not stand the swell and almost in the twinkling of an eye she filled on the gentlemen. They were fully two and one-half miles from shore at the time. They had a little sail on the boat and Mr. Kemp switched around and started with the wind for shore, and by very hard work they managed to land all right, but it was a very narrow escape. As soon as they got within wading distance to shore all three jumped out and saved the boat from a number of logs which they had driven into. Mr. Cochran states that if any one thinks he will drown on a lake they are mistaken, for he will never go out again unless he knows where he is at.

CAUSES OF HAY FEVER.

Hyomei the Only Cure—Gives Change of
Climate in Your Own Home.

Fifty years ago hay fever had not been named but undoubtedly people suffered then as they do now with storms of sneezing, profuse watering of the eyes, excessive running at the nose, intense smarting and itching and stuffed up feeling in the head.

The direct causes appear to be heat, dust and the pollen of flowers. Although hay fever may appear at any season of the year, it is most common and severe in August, and preventative treatment should be adopted some weeks before the time the disease is due.

Prior to the discovery of the remarkable effects following the use of Hyomei, the only treatment that gave relief to hay fever sufferers, was change of climate. The use of Hyomei enables one to breathe air at home which is like that of the Adirondacks, the White Mountains or other health resorts where healing balsams fill the air with nature's germ destroyer, ozone.

Those who are subject to hay fever should begin the use of Hyomei at once and thus prevent the disease. An ounce of prevention is worth a pound of cure in the treatment of hay fever.

H. P. Dunn & Co. have seen the good effects following the use of Hyomei in all diseases of the respiratory organs, and are willing to sell Hyomei to any hay fever sufferer, with the understanding that if it does not give satisfaction, the treatment will cost nothing. 49

COUNCILMEN HAVE A TAME SESSION

Regular Meeting of the Brainerd City Fathers Held in Chambers.

ROUTINE BUSINESS TRANSACTED

Report of Supt. Peterson on Water Power at Dam Was Rather Important.

The first regular meeting of the city council held in chambers last night was one of the tame variety and very little outside of the regular routine of business was transacted. Contrary to what had been expected the council did not discuss the water works matter at all, and in view of the recent meeting of the citizens' committee it seemed strange. President Crust presided over the deliberations and the following responded to the roll call: Halladay, Murphy, C. D. Johnson, Rowley, Gruenhagen and Robertson.

The report of Supt. Peterson, of the electric light plant, showed forty lights cut in during the month of June, three cut out and seventy-six are lights in use. He reported having placed new lights at the following intersections: Corner of Whiteley and Mill streets, First avenue and Pine street, First Ave. and Farrar street, Tenth and Ivy streets, Second and Kingwood streets. He reported that the motor for the crusher had been sent to the Northern Electric company, of Duluth, for repairs, but it had not been returned.

The superintendent brought up a matter of great importance and reminded the council that it is imperative that something be done at once. It was regarding the water trail under the wheels at the power house. He stated in the report that the water had not been so low in years and that the matter requires the immediate attention of the council for fear of a complete shut down. Mr. Peterson reported that two transformers had burned out during the recent electrical storm and recommended that two new ones be purchased. The report was on motion accepted and filed.

The usual grist of reports from the city officials were received, but nothing of importance developed therefrom, they being of a routine nature.

The usual pay rolls of the city were also allowed.

A bill was received from the Northwest Paper company for \$750 water power rental from the first of January to the first of July. This bill seemed an enigma to some of the councilmen in view of the fact that it was supposed the paper company took control of the dam on June 1, as they had been led to believe. But the matter was explained by Alderman Rowley that the company was probably collecting part of the amount for the boom company; that there is a clause in its contract prohibiting it from selling water power at the dam, and in fact Mr. Rowley explained that this was one reason why it had been difficult for the city to ascertain who really owned the dam during the past year or two.

There was quite a hubbub made by Alderman Murphy over the matter of the purchase of two window shades for Alderman Rowley's office, but it was ascertained that these shades were purchased for the engineer's office and under instruction from the special committee to look after this matter. No rent is charged the city for the office, but it was the understanding that the shades would be put on.

The committee to which had been referred the matter of constructing a bridge across Spring creek, instead of furnishing the council with a report themselves had City Engineer Woolman look the ground over and furnish an estimate of the cost of a bridge there. The approximate cost he thought would be \$534. The report was accepted and filed but no further action was taken regarding the matter.

On motion City Attorney Fleming was instructed to proceed to open up Kinsey street between Second and Third avenues in East Brainerd.

On motion of Alderman Halladay the street commissioner was instructed to inspect the sidewalks on Eighth street near the Episcopal church, and if he finds them in bad shape to have them condemned and new walks laid.

The matter of filling the street on the corner of Fifth and Kingwood came up. After the sidewalk in front of the Paine and Rhodes properties was put down the grade which was made is way up and consequently there will have to be a big fill in the streets. It was thought that this should be done at once in order to protect the walks. Alderman Rowley thought that a permanent resolution or ordinance should be passed making it compulsory at all times for such fills to be made immediately. No action was taken on the matter.

City Engineer Woolman was instructed to ascertain if the sidewalk on Seventh street between Kingwood and Juniper streets had been laid to grade according to the profile adopted.

The liquor license applications of the following were granted and the

bonds in each case approved: John Parsons, Tyske & Lindstrom, Chas. Swanson, Chas. Peterson, D. F. McIntosh, Jerome Kelleher and J. C. Jamieson.

Mike Remmels had an application in but this was referred to a special committee to investigate consisting of Aldermen Robertson, Rowley and Gruenhagen. Alderman Robertson is the man who made Mr. Remmels squirm and claimed that he had many complaints of the way he had run his saloon on the corner of Laurel and Eighth streets.

A resolution was received by the council from the Brotherhood of Railroad Carmen referring to the water works matter. The resolution was in effect an appeal to the council not to deal with The Minnesota Water Works company but rather to form a stock company and put in an independent plant. The resolution was on motion placed on file.

The council passed an ordinance providing for a dog agent. It seems that the old ordinance was defective in some manner and as Special Officer Knudson has been getting very busy in the dog business lately it was found necessary to do something. The mayor will now appoint Knudson dog agent and he will be officially confirmed by the council.

Judge Warner's request for a telephone was referred to City Clerk Low who will interview Manager Walker, of the telephone exchange on the matter.

City Engineer Woolman furnished the profiles for the grades on Fifth street north and Ninth street south. They were officially adopted.

Street Commissioner Weitzel was instructed to use his little book in the future.

Alderman Gruenhagen thought the catch basins in the city should be cleaned and a motion to this effect prevailed.

A motion by Alderman Rowley prevailed to the effect that Former Eng. Whiteley be instructed once more to return all the profiles, maps, etc., of the city. The city attorney was instructed to look after this matter and place a time limit for the return of the same at ten days.

The council adjourned.

Of the Board at Which Several Matters of Importance Came up for Consideration.

There was a meeting of the board of education last night at the Washington school building and there were several matters of importance brought up for consideration.

One of the most important matters, perhaps, was the election of a member of the board to succeed S. L. Bean, whose resignation was received. The only name presented to the board for consideration was that of Dr. Werner Hemstead and he was unanimously elected.

The janitor committee presented the names of those whom they recommended for janitors for the ensuing year and they were unanimously elected. The men are all reelected and their names are as follows: First ward, A. B. Anderson; Second ward, Chas. Blomstrom; Third ward, J. P. Anderson; Fourth ward, John Noran; Fifth ward, M. Swanson; Mill, James Chadwick.

The resignation of Miss Anna B. Keating as a teacher in the schools was received and accepted.

The request of Prof. J. A. Wilson for two rooms in which to conduct a teacher's examination was referred to the committee on buildings with power to act.

The report of Supt. Martin, who has charge of the work on the new additions was received and filed. He furnished the estimates of the cost of the work done so far.

CAUSES OF HAY FEVER.

Hyomei the Only Cure—Gives Change of Climate in Your Own Home.

Fifty years ago hay fever had not been named but undoubtedly people suffered then as they do now with storms of sneezing, profuse watering of the eyes, excessive running at the nose, intense smarting and itching and stuffed up feeling in the head.

The direct causes appear to be heat, dust and the pollen of flowers. Although hay fever may appear at any season of the year, it is most common and severe in August, and preventative treatment should be adopted some weeks before the time the disease is due.

Prior to the discovery of the remarkable effects following the use of Hyomei, the only treatment that gave relief to hay fever sufferers, was change of climate. The use of Hyomei enables one to breathe the air at home which is like that of the Adirondacks, the White Mountains or other health resorts where healing balsams fill the air with nature's germ destroyer, ozone.

Those who are subject to hay fever should begin the use of Hyomei at once and thus prevent the disease. An ounce of prevention is worth a pound of cure in the treatment of hay fever.

H. P. Dunn & Co. have seen the good effects following the use of Hyomei in all diseases of the respiratory organs, and are willing to sell Hyomei to any hay fever sufferer, with the understanding that if it does not give satisfaction, the treatment will cost nothing. 49

RIOTERS SHOT DOWN BY INDIANA TROOPS

MOB ATTEMPTS TO CAPTURE THE

JAIL AT EVANSVILLE AND

IS REPULSED.

SEVEN PERSONS ARE DEAD

MORE THAN A SCORE OF OTHERS

WOUNDED BY THE FIRE OF

THE SOLDIERS.

HUNDREDS OF SHOTS FIRED

STREET IS LITERALLY STREWN

WITH BODIES OF THE DEAD

AND THE DYING.

Evansville, Ind., July 7.—Following

four days of rioting and general law-

lessness, Evansville Monday night

saw a battle between a troop of sol-

diers and a mob of armed men in

which seven persons were killed and

from fourteen to twenty were severely

injured, while a score of others were

slightly hurt.

At 10:30 o'clock the members of

Company A, First regiment Indiana

National Guard, after a day's vigilance

guarding the county jail, and 100

deputy sheriffs under Sheriff Chris

Kratz, fired point blank into a mob of

1,000 men gathered at Fourth, Division

and Vine streets. These law breakers

were surrounding the Vanderburg

county jail and attempting to capture

it.

Crowd Stones Militiamen.

From 7 o'clock Monday morning un-

til the hour of last night's catastrophe,

the crowd surged about the jail, calling

the militiamen vile names, assailing

them with stones and berating the

deputy sheriffs, who guarded the jail.

At 9 o'clock the mob gradually be-

came more and more excited, its man-

ifestations of uneasiness became more

frequent and at 10 o'clock it was seen

that nothing could prevent an assault

on the jail. At 10:30 o'clock the rioters

pressed slowly forward and inno-

cent onlookers and curious persons

followed. Slowly they forced the

militiamen back toward the jail until

the alley between Division street and

the stone building was reached. Then

the leaders, with a bicycle in their

front as a shield to the bayonets of the

soldiers, attempted to enter the alley

and to storm the alleyway entrance.

Captain Blum of the national guard

ordered a charge on the rioters. Grad-

ually the crowd was forced back, the

Soldiers Using Their Bayonets

and the butts of their guns. Suddenly

a rioter fell. A soldier tried to lift him

to his feet, but before he could do so he

was assaulted by a rioter. Stones and

boulders began to fly through the air.

A soldier was struck with a rock and

fell. A rioter was knocked down with

a gun butt and then a shot was fired.

The one shot started a fusillade of

musketry and shotgun fire from the

defenders of the jail and a scattered

return fire from the rioters. Fully

300 shots were fired from the jail win-

dows, the courthouse steps immedi-

ately opposite and by the soldiers on the

streets. No one knows who fired the

first shot. The soldiers say it was the

rioters, while the rioters refuse to talk.

Governor Durbin is said to have in-

structed the authorities not to lessen

"Kill them," shouted a score of

others.

Some of the rioters tried to change

their positions, and heard cries of

"halt," accompanied by the clicking of

rifles.

Within a half hour things had be-

come so quiet that care could be taken

of the dead and the injured. The

wounded soldiers were taken into the

jail and found to be four in number.

Their injuries were slight and were

tended by Surgeons Tepe and

Archilles. The injured soldiers were

taken to the courthouse, and later to

their homes. The others were picked

up and taken to hospitals and their

homes in ambulances and carriages.

Rescued With Difficulty.

This rescue was accomplished with

difficulty, as only a few men were

brave enough to pick up the wounded

Charles Presby, a bricklayer, carried in-

to the courthouse. Through his wrist

was a buckshot hole and each of his

feet were shot through the heels. He

was crying with pain. Others were

more stoical. Many of them were

taken away before their names could

be learned. The police department

and the ambulance corps were anx-

ious that too much be not learned by

the reporters and it was with the great-

est difficulty that facts could be as-

certained.

After the shooting, Colonel McCoy

telegraphed to Captain McCoy of

Company A, First regiment, at Vin-

centennes, and tried to get him by tel-

ephone to order his company to Evan-

sville to relieve Company E. Sheriff

Kratz looked to his deputies and

handed out ammunition to the de-

fenders of the jail. Inside the jail,

sixteen of them negroes whose lives

are not safe if the mob attacks the jail

again and effects a capture.

Lights within the jail were turned

out when the shooting began and the

prisoners moaned and sobbed in their

dark cells. Telephone messages were

sent from the jail to the hospitals and

to physicians, calling for aid. The

response was quick. Doctors from all

over Evansville drove rapidly to the

jail.

Vincennes' company of militia is on

its way here and Colonel McCoy fears

another outbreak when it arrives. All

is now quiet around the jail, the sol-

diers still standing under arms. Out-

posts are scattered to avoid guerrilla

shooting from the neighboring streets.

The dead are: Edward Schiffman,

Hazel Allman, John Barnett, August

Jordan, Edward Rule and two uniden-

tified men.

The wounded are: Fred Schmidt,

Fred Kappler, Lee Hawley, Robert

Miller, Charles Presby, Theodore

Beem, Joseph Fares, Albert Kaues.

Six other rioters were seen to fall,

of men who ran into Division street,
falling, crying and begging. For fif-
teen minutes the firing continued. The
mob was gone and the soldiers were
holding the place. In front of the
staggering band of fifty-eight soldiers
lay the dead and the wounded. Moans
and shrieks of agony and fear came
from the injured. Ed Schiffman, a
painter who was seen in the first
ranks of the mob during the evening,
lay on the sidewalk. The top of his
head had been blown off with a 45-
calibre bullet and his brains were ooz-
ing on the sidewalk. A short distance
from him lay another man. Close by,
stretched the bleeding form of another
young man, dead, with a bullet wound
over the heart. All over the street,
crawling and moaning, wounded riot-
ers and onlookers tried to ease their
pain and to get away from the jail
and the small body of soldiers.

In Division Street, between her

grief-stricken father and mother, the
Allman Girl Lay Dead,
with her breast torn away with a buck-
shot charge. She had been out driv-
ing with her parents, who, attracted
by the noise, stopped to watch the ex-
citement.

In the yard of the courthouse,
wounded rioters sprawled, and back
of the line of soldiers two of the mil-
itiamen had fallen.

On the jail steps stood Sheriff Kratz.
At his side was Colonel McCoy of the
First regiment. Around them stood a
few doctors and reporters. When the
firing ceased Captain Blum reformed
his men and ordered "Keep that mob
back, call on them to halt; if they
don't halt, shoot them down. We
can't take any more chances. Men,
be careful, but for God's sake keep a
close watch."

And the captain's men prepared for
another struggle. It did not come.
The rioters got out of sight quickly
and

Fearing Another Charge

would be made, scattered. They stood
in knots around the corners in the vi-
cinity. They could be heard at the
jail arguing among themselves.

"Let's go get the damned murder-
ers," called one.

"Down with them," cried another.

"Kill them," shouted a score of
others.
Some of the rioters tried to change

GOVERNOR DURBIN AGITATED.

May Go to Evansville and Declare
That City Under Martial Law.

Indianapolis, July 7.—Governor Dur-
bin was much agitated at the infor-
mation from Evansville. "If this con-
dition continues," he declared, "I shall
go to Evansville and declare the city
under martial law."

At midnight he began to order out
additional militia companies. The
first was that from Vincennes, which
was rushed to Evansville on a special
train. The New Albany company was
then called out and placed under arms
with orders to proceed to Evansville
early this morning. The Terre Haute
company was placed under arms, ready
to move on a moment's notice, arrange-
ments having been made for a spe-
cial train which would hurry the sol-
diers to Evansville. Early this morning
the governor was at his office in
the state house and said that he would
order out the Indianapolis militia com-
panies, to act as reserves in case of
further trouble.

He was frequently in telephonic con-
ference with Colonel McCoy, who is in
command of the militia troops at
Evansville. The governor was indig-
nant because the sheriff of Vander-
burg county had not quelled the riot
in its incipency.
"He should have sworn in 6,000
deputies instead of 1010," he said. "If
he had performed his duty fearlessly
in the first place, without having at-
tempted to shift the responsibility to
the state, this thing never would have
happened."

CAUSE GREAT EXCITEMENT.

Rumors That an Evansville Mob Might
Go to Vincennes for Brown.

Vincennes, Ind., July 7.—Rumors
that an Evansville mob might come to
Vincennes to lynch Lee Brown, the ne-
gro who killed Patrolman Massey,
have caused great excitement. The
Knox county jail, where Brown is
confined, is a new one of stone, and
fifty deputies probably could defend it
from any mob.

Sheriff Summit has sworn in a large
number of deputies. Brown is fright-
ened and is suffering intensely from a
severe wound in the breast received
during the fight with Patrolman Mas-
sey at the time Massey was killed.

Brown was pronounced to be dying
last night by Doctors Breck, Nesham,
McDowell and Smadel. The prisoner
is so weak from loss of blood from the
bullet wound in his left lung that he
cannot stand, and death will come
within forty-eight hours, the doctors
say. Brown last night denied that he
had been sentenced to hang for mur-
dering a miner in Colorado.

Brown said his home was in Minne-
sota, that his parents were dead and
that he had a sister, but could not find
her.

Eight Terre Haute negroes were
eased out of Linton by a mob of
miners. The police of that city had a
hard time to prevent a lynching.

CONGRESSMAN GILL RESIGNS.

Gill, Republican, has sent his resig-
nation to Governor Nash as the member
of congress from the Sixteenth Ohio
congressional district, to take effect
on the qualification of his successor.
The condition of his health is assigned
as the sole cause of resignation.
